

Etsy

Log on to your Etsy account. In the top right hand corner, select “You”. Select “Account settings”.

Under “Account”, you can see your basic profile information, including what other accounts are connected to you Etsy. It is recommended that you do not link your Facebook, Google, or Twitter accounts to your Etsy.

The screenshot shows a user profile settings page with a navigation bar at the top containing the following tabs: Account, Preferences, Privacy, Security, Addresses, Credit Cards, and Emails. The 'Privacy' tab is currently selected. Below the navigation bar, there is a section titled 'Findability' with a light gray background. Inside this section, the text reads: 'Do you want others to be able to find you by your email address? Your email address will not be publicly displayed.' Below this text are two radio button options: 'Yes' and 'No'. The 'No' option is selected, indicated by a filled circle. At the bottom of the 'Findability' section, there is a blue button labeled 'Update Privacy Settings'.

Under “Privacy”, you can edit your “Findability” via your email. It is recommended that you select “No”.
This will prevent others from finding you by your email address.

There are no recent sign ins.				

Under “Security”, you can edit your notification settings and access your sign-in history. The following is recommended:

Two-Factor Authentication: Off; It is recommended that you do not associate any further information, such as your phone number, required in a two-factor authentication.

Sign-In Notifications: On; It is recommended that you turn this feature “On”, as it will alert you should any sessions be opened in your account.

Sign-In History: On; It is recommended that you turn this feature “On”, as it will allow you to view all recent sessions and logout of sessions left open on other browsers.

From the menu bar on the left, select “Public Profile”.
